

Have your say about...

Future quarrying and waste facilities

How much waste will be produced in the county by 2031?

And what we will do with it?

The Draft Waste Plan includes site options for locating new waste management facilities, including household recycling centres and facilities for treating different types of waste.

Where will our supply of sand, gravel and building stone come from to enable us to continue building homes and maintaining roads?

22 sites for future quarries in the county have been identified in the Mineral Sites Plan.

You can find out more by coming along to an exhibition:

Your nearest exhibitions are:

Wed 29 July 3 –7pm Brownsword Hall, Poundbury

Tue 1 Sept 3 – 6.30pm Dorchester Library

For a full list of exhibition dates and venues, see our website.

You can comment on the Draft Mineral Sites Plan and the Draft Waste Plan between 15 July and 23 September 2015
